

# KoolITE

## A Safer Loading Dock Light

*REDUCE YOUR  
MAINTENANCE  
COSTS*

### **BENEFITS**

#### ▶ **ULTRA-DURABLE**

High-impact polycarbonate head is indestructible under normal industrial use, eliminating the need for frequent, costly repairs and allows maintenance crews to be more productive.

Shock-resistant head weighs 50% less than conventional metal heads and bulb\* is protected by wire guard.

\*Bulb not included.

#### ▶ **QUALITY CONSTRUCTION**

Safety yellow powder coating finish promotes high-visibility and is rust resistant.

Anchors with sturdy, all-metal bracket and four 7/16" mounting holes to spread weight and transfer load.

Arms made from 1-1/2", 14-gauge square steel tubing in a double-strut design, extending 40" for stability.

#### ▶ **IMPROVES SAFETY**

Many workers have been burned when touching a hot head lamp. Our "Kool" polycarbonate head resists high heat build up that is typical of conventional dock light heads.

#### ▶ **SAFETY REQUIREMENTS**

CSA certified.

## **SPECIFICATIONS**

### **MODEL DL-40**

- ▶ Extended: 40" (1016 mm) extension
- ▶ Retracted: 22 1/2" (572 mm) extension x 14" (356 mm) high
- ▶ 110 Volts
- ▶ Uses 120 watt max. Type PAR-38 Lamp only
- ▶ Shipping weight: 15 lbs. (6.8 kg.)

### **MODEL DL-60**

- ▶ Extended: 60" (1523 mm) extension
- ▶ Retracted: 22 1/2" (572 mm) extension x 14" (356 mm) high
- ▶ 110 Volts
- ▶ Uses 120 watt max. Type PAR-38 Lamp only
- ▶ Shipping weight: 20 lbs. (9.1 kg.)
